

Stop The Fire

Panama

Hold this thought in your hands
Images that you describe
Not sure, not sure
Searching onto something real
Something you could feel

A new life
Is just a vision from a distant place
I never change some minutes
I never change the minutes

Hold this thought if you can
Fighting all this thing
Fighting all this thing I am

Can't stop the fire
You can't stop this moment as it blinds you
Can't stop the fire
It takes so long do what you want to do

The images that you describe
I'll do my best to hide
Exchanging only inside
It seems the cutest part of me
Fighting all this thing,
fighting all this thing I am

Visions were falling
to the vortex of my doubt
All it takes is you and...
not sure, not sure
Nonsense you disguise
I try to stand away
I try to stand away sometimes

Can't stop the fire
You can't stop this moment as it blinds you
Can't stop the fire
It takes so long do what you want to do
Can't stop the fire
You can't stop this feeling all around you
Can't stop the fire
It takes so long do what you want to do

Can't stop the fire
You can't stop this moment as it blinds you
Can't stop the fire
You can't stop this moment as it blinds you
Can't stop the fire
You can't stop this moment as it blinds you
Can't stop the fire
It takes so long do what you want to do
