

# The Highs

Panama

Something that you said  
Takes me back in time when we were still new  
Oh you and I wouldn't let love go to waste  
Can you recall this, picking me up again  
Oh you and I, it was our time

Straight to your heart  
Am I closer now  
You say that you can't keep this up  
With me anymore  
You've got to know now  
How it feels and sounds  
Wish I could predict the things that you say

Ahhhhh  
Can we just start again  
Ahhhhh  
Can we just start again  
Something that we have  
Can we just start again  
Something that we have  
Can we just start again

This ain't over, not so far away now  
You and I, won't let love go to waste  
Can you imagine this, picking us up again  
Oh you and I, it's now our time

Something that we have  
Can we just start again  
Something that we have  
Can we just start again  
Something that we have  
A feeling that I am with you  
Something that we have  
This is the moment I'm holding onto
