

Undertow

Panama

Give me something I can, Something I can lean on
23 in the afterglow
I stared from the top, Stared from the top
Looking down, Looking down again
Give me someone to rely on, Someone close to rely on
Looking down, 'cause I know what it's like to be numb
I stared from the top, stared from the top
Looking down, Looking down again

I'll see you in the undertow
Where the time goes on and on so slow
I won't have to let you go
When I see you in the undertow
I'll see you in another life
Because I won't forget
I won't forget you
I won't have to let you go
When I see you in the undertow

I need something closer, Someone closer to confide in
When the time has been stripped away
Can you hang on, Can you keep on hanging on until the summer days
Give me something to rely on, Someone close to rely on
Looking down, Because I know what it's like to be numb
I stared from the top, stared from the top
Looking down, Looking down again

I'll see you in the undertow
Where the time goes on and on so slow
I won't have to let you go
When I see you in the undertow
I'll see you in another life
Because I won't forget
I won't forget you
I won't have to let you go
When I see you in the undertow

Hoo ooh ooh ooh I'll see you in the undertow
Hoo ooh ooh ooh I'll see you in the undertow

I don't want to give this up till my heart gives out till my heart gives out
Oh oh oh
I don't want to give this up till my heart gives out till my heart gives out

I'll see you in the undertow
Where the time goes on and on so slow
I won't have to let you go
When I see you in the undertow
I'll see you in another life
Because I won't forget
I won't forget you
I won't have to let you go
When I see you in the undertow

Hoo ooh ooh ooh I'll see you in the undertow
Hoo ooh ooh ooh I'll see you in the undertow

Hoo ooh ooh ooh I'll see you in the undertow
