

## CUT

Panchiko

Faster than light  
To burn the stripes  
They forged this heart  
For you to play the part

Have I been cut again  
Just to dodge  
Sweet descent my friend

Spit now the fire  
Fantasies desire  
They forged this heart  
For you to fall apart

Have I been cut again  
Just to dodge  
Sweet descent my friend

And I will reap what you've sown  
Just to play  
These games we love

Try to describe  
The voices in your head  
They're hard to disguise  
Somebody said  
Come back to Earth  
You've gone too far this time  
They cut you too deep  
You tread these thin white lines  
And we know the truth  
We sit at home  
We watch the girl in the booth  
Who gives her services for hundreds of yen  
She wonders where all the happiness went

She's cut, cut, cut  
She's cut, cut, cut  
She's cut, cut, cut  
She's cut, cut, cut
