

Laputa

Panchiko

Daddy fell into the sun
'Cause he's not with anyone
She came falling to screaming skies
The answer's no, it's just too high

Laputa was all we knew, and
How we got there, how we flew up
Heaven's doors are miles away
'Cause you're stuck to the ground, you have to stay

The robots died in a flash
The robots died of it last

Laputa was all we knew, and
How we got there, how we flew up
Heaven's doors are miles away
'Cause you're stuck to the ground, you have to stay
