Panchiko

Daddy fell into the sun  
Cause he's not with anyone  
She came falling to screaming skies  
The answer's no, it's just too high

Laputa was all we knew and  
How we got there, how we flew up  
Heaven's doors are miles away  
Cause you're stuck to the ground, you have to stay

The robots, died in our flames  
The robots, died of it, yes

Laputa was all we knew and  
How we got there, how we flew up  
Heaven's doors are miles away  
Cause you're stuck to the ground, you have to stay

The robots, got creative block  
The robots, got creative block
