

Until I Know

Panchiko

And I don't know if you're coming back
I wouldn't be there, said I would've waited by now
Got a fear of a recompense
Firing your belly in
How did it come back to this?

You know you always need this much
You know you always need this
You know you always need this much
You know you always need this

Take on this chance
All the parts are in place for the sun
In your heart, breeds disease and disgrace
When the missed roll it in
You exhale, I can't control this heart
It's in tow, it's a start
But I wouldn't really know
Until I know

And I don't know when to stop, it can't
How could they ever win?
Carrying the shit on their back
You've got the fear of a symphysis
Firing your synapses
How did it come back to this?

You know you always need this much
You know you always need this
You know you always need this much
You know you always need this

Take on this chance
All the parts are in place for the sun
In your heart, breeds disease and disgrace
When the missed roll it in
You exhale, I can't control this heart
It's in tow, it's a start
But I wouldn't really know
Until I know

And I won't stop until you go
And I won't stop until you go

And you always know you need this much
You know you always need this
You know you always need this much
You know you always need this
