

Cranked

Panda Bear

At it again
Skip to the end
Cut on the mend
It's a wheel

Gift of the gab (told you so)
Good with a bag (gift of the gab)
Slave to the trap

And though we're shook up
Counting tick tock

Skip to the beat
Get a part in the band
Heat in the heart
With the meat in your hand
Just takes a spark
Took a shine took a stand

Just a little bit
The other way
And then we'll make a plan
And then

Kicking the can
Quick as I can
Did it again
Eureka!

Guy on the ropes (yes you can)
Don't give up hopes (start again)
Slip on the slopes

And though were messed up
Wounded and dressed up

Skip to the beat
Get a part in the band
Heat in the heart
With the meat in your hand
Just takes a spark
Took a shine took a stand
Just a little bit
The other way
And then we'll make a plan
You think

Why did I fly so high?
