

Flight

Panda Bear

Pick up the good crew

We got the good crew
Been running with the good crew
But we're not selling
Been out for a minute
Gonna stay out for a minute
Took a sock to the socket
We got a black eye
Sucks and everything

So long now
Seems like a long time now
Stepping out the doo doo
A foot at a time
Knock and knock again
'Til you can't knock again
This time
Gonna crack it open

Falling asleep at the wheel
A pecker full of no good
Pissing alone
Messing with the voodoo
Tossing out a horseshoe
You're close enough
It's gonna be fine

Take a whacking to the gong
Take a lick of something on the brink
Making sure everybody knows
We got the good crew
And
This big up to the good crew
Never be the same
Never see the uncle the same

We got the good crew
Been running with the good crew
But we're not selling
Been out for a minute
Gonna stay out for a minute
Took a sock to the socket
We got a black eye
Sucks and everything

No way no how
At this pow wow
Saying to the younger ones
You've got to get the boogie out
Finding ways to wave
Don't know if you're coming or you're gone
Not gonna let this feeling go down

Can't be goodbye
Goodbye good crew
So I won't say goodbye

Goodbye to you
All good wishes
Wishes to you
All good fortune
Fortunate you

(We don't share at all
Why are we telling them
To share it all)
