

# Sometimes When It Hurts Bad Enough It Feels Like This

Panda Bear

Today we're going to discover all kinds of wonderful things about the  
many ways people make music  
Singing, playing guitars and violins, beating drums, tooting horns  
Ha ha!  
Why, we're going to hear everything from a rock and roll band to a fu  
ll-sized orchestra  
Oh, it's gonna be lots of fun  
Wanna come along? Well you can  
And the best part is you don't even have to leave the room you're in  
right now  
Just by using your imagination, you will be able to go with me to all  
the wonderful places we're planning to be in  
And that same imagination is going to let you see all kinds of fantas  
tic pictures in your head:  
Pictures of people making music  
And the concert halls and recording studios where they perform and wo  
rk  
And then you're going to take those pictures out of your head and dra  
w them on paper with your crayons  
And because you're thinking, you can draw whatever you want  
And it will look just great  
And while you're drawing, music will be playing to help your thoughts  
flow  
And if the music ends before you've finished with your picture  
Ha ha, then it's no problem!  
Just turn off your tape player until you finish drawing and then turn  
it back on again  
I won't go away, I'll be waiting right here for you  
I brought along my friend Wendy to let you know when to turn off your  
tape player so you can finish your picture  
When you hear Wendy go [\*siren sound\*] that's your signal to stop the  
tape until it flows on  
And by the way, do you know how to turn the tape player on and off?  
Well, if you don't, just ask someone to show you how  
Then you'll be able to start and stop your tape player whenever you w  
ant  
Well, let's head on into the radio station and meet our friend, the D  
.J  
Through the door here  
And then up these steps to the broadcasting studio  
Here it is  
Let's go inside  
What do you think [?]  
That doesn't sound much like music to me  
But there's Dapper Dan sitting over there!  
He's got a microphone in front of him and he's got all sorts of contr  
ols and knobs and levers and a power board  
He looks pretty busy, pushing buttons and turning knobs  
Maybe that's where all these funny noises are coming from, Ha ha ha!  
Hello, Dapper Dan!  
We've come to take a musical adventure!  
Well okay, Dapper Dan will be right back after this message

Well hello everybody, how goes it?  
Ju-just a minute now I'm almost done I-  
I'm here doing the controls and it's got itself

Dapper Dan is my main man, ha ha!  
Dapper Dan is my main man, ha ha!  
Dapper Dan is my main man  
Dapper Dan is my main man  
Dapper Dan...
