

## Venom's In

Panda Bear

In the beginning, sirens are ringin'  
Only hear 'em down the line  
Spinnin' with the sting of the tease and I'm in it  
Freed from the company  
Gonna take some time 'cause the venom's in

Sick 'cause it's workin', bruised and it's hurtin'  
Moved by the brunt of it  
Soon it's all over, can't get much lower  
Proved by the feel of it  
Can't make up the mind when the way is hidden

There's a bullet aimed at you  
And there's nothin' you can do  
It's a power holdin' you  
With a silent aim that's true  
Take a step

Out of the crossfire, out of the optical  
Into the fire, get clean by the flame  
Tripped on the high wire, maybe it's balancin'  
I'm getting tired, of sayin' the name

Change in the pocket, keys to unlock it  
Dreams of a better day  
Plugged in the socket, load it and cock it  
Toein' a blurrin' line  
Gonna take some time 'cause the venom's in

Slave to the slither, bit and you wither  
Broke and you're backin' up  
Steps that are taken, rules that are breakin'  
Choked and I'm crackin' up  
Can't make up the mind when the way is hidden

There's a bullet aimed at you  
And there's nothin' you can do  
It's a power holdin' you  
With a silent aim, that's true  
Take a step

Into the unknown, out of the optical  
Into the fire, get clean by the flame  
Tripped on the high wire, maybe it's balancin'  
I'm getting tired, of sayin' the name

Into the unknown, out of the optical  
Into the fire, get clean by the flame  
Tripped on the high wire, maybe it's balancin'  
I'm getting tired, of sayin' the name
