

Bunnies

Pansy Division

I've never been in anything like this before
We take off our clothes before we're in the door
Eight hours of work is especially tough
When three times a day is barely enough
I got the carrot, you got the stick
You start to nibble I start to lick
And we get our bodies all hot and sweaty and runny
Then we fuck like bunnies
Showing up early catches me off guard
Hearing your knock on my door gets me hard
You drive me rough like a pick-up truck
It's a never-ending nonstop boy fuck
Chorus it's been days and days since i've seen my friends
Burning the candle with you at both ends
We might burn out like a supernova
But for the moment, please roll over
Chorus
