

## Sleeping in the Cold

Pansy Division

The thought gives me a chill  
How close we came but still not right  
Second guessing first impressions  
Won't keep me warm at night  
When I'm alone with no one there to hold  
Sleeping in the cold

I try to rid my mind  
Of all the painful residue  
Try to stop these machinations  
I'm as afraid as you  
I'll wind up poor and lonely when I'm old  
Sleeping in the cold  
Sleeping in the cold  
Sleeping in the cold  
Add another layer to the fold  
Sleeping in the cold

I'm looking for a reason  
Some lesson to be learned  
To keep from feeling bitter about  
The times that I've been burned

I've turned so far away from heat  
My heart's a frozen lake  
And I can't help but wonder  
Have we made a big mistake in letting go?  
Are you sleeping in the cold?

Sleeping in the cold?  
Sleeping in the cold?  
Sleeping in the cold?  
Add another layer to the fold

Sleeping in the cold  
Sleeping in the cold  
Sleeping in the cold  
Add another layer to the fold  
Sleeping in the cold
