Always Wandering

Papa Roach

I can't recall what I don't remember
Behind the walls and the barricades
I lock the door when I can't surrender
I turn around when I shoulda stayed
How did we get

So far away from the break through
Keep holding back all the issues
Nothing but cracks in the rear view
We're always wandering
Outside the lines on the way out
Can't get away from the comedown
Afraid there's too much to say now
We're always wondering
(We're always wondering)

No telling if we're making something out of nothing
We get turned around sometimes before we see what's comin
We needed the distance (We needed the distance)
To know what we're missing (To know what we're missing)
Another remission (Another remission)
And now I'm running from a collision

So far away from the break through
Keep holding back all the issues
Nothing but cracks in the rear view
We're always wandering
Outside the lines on the way out
Can't get away from the comedown
Afraid there's too much to say now
We're always wondering
(We're always wondering)

(I'll see you at the red light)
(I'll see you, I'll see you)
(I'll see you at the red light)

So far away from the break through
Keep holding back all the issues
Nothing but cracks in the rearview
We're always wandering
Outside the lines on the way out
Can't get away from the comedown
Afraid there's too much to say now
We're always wondering
