

Kill The Noise

Papa Roach

(Kill the noise)

No love, no feelings
I choke on the air I'm breathing
Undone, unhealin'
Ain't nobody stoppin' the bleeding

I'm death with demons on both sides
Can't take no angel left inside
Take to the static in my mind
And I can't hide

This change, I just can't escape
Screaming at my face
So loud I can't hear my voice
Breaking through my mistakes
Free falling to grace, I'm not insane
It's time to kill the noise
(Kill the noise)

My scars keep screamin'
I lived through the pain for a reason
My gut, my anger
It drives me down like an anchor

I'm death with demons on both sides
Can't take no angel left inside
Take to the static in my mind
And I can't hide

This change, I just can't escape
Screaming at my face
So loud I can't hear my voice
Breaking through my mistakes
Free falling to grace, I'm not insane
It's time to kill the noise

Shut up!
Shut up!

This change, I just can't escape
Screaming at my face
So loud I can't hear my voice
Breaking through my mistakes
Free falling to grace, I'm not insane
It's time to kill the noise
(Kill the noise)

Breaking through my mistakes
Free falling to grace, I'm not insane
