

# Not the Only One

Papa Roach

I was screwed up  
I was angry at the world  
I felt like I was a loser  
I had a chip on my shoulder then  
In a low place  
Wishin' I was anywhere else but there  
On a California highway  
I was broke, but I always had time to spare

You know, hard times always come easy  
But they never last long  
If you feel alone when you're down, just know  
You're not the only one  
You know, hard times always come easy  
But they never last long  
If you feel alone when you're down, just know  
You're not the only one

You're not the only one  
You're not the only one  
Uh, I used to wanna run away, back when I was young  
Couldn't wait to go a couple times around the sun  
Now I wish that I can take it back  
When the only thing we cared about was nothing  
And I'm not the only one

Yeah, I got demons  
But so does everybody else  
When it's cold, we turn the heat up  
Just to feel what it's like in hell  
Tired of everybody preaching'  
That ain't doing shit for themselves  
Talkin' to me like I need it  
Maybe 'cause I said that I needed help

You know, hard times always come easy  
But they never last long  
If you feel alone when you're down, just know  
You're not the only one  
You know, hard times always come easy  
But they never last long  
If you feel alone when you're down, just know  
You're not the only one

You're not the only one  
You're not the only one  
Uh, I used to wanna run away, back when I was young  
Couldn't wait to go a couple times around the sun  
Now I wish that I can take it back  
When the only thing we cared about was nothing  
And I'm not the only one

Not the only one  
Not the only one  
Not the only one  
Oh, you're not the

You're not the only one  
You're not the only one  
You're not the  
You're not the only one (You're not the)  
You're not the only one (You're not the)  
You're not the only one
