

# Nothing

Papa Roach

Nothing's ever gonna change  
If you don't stand up and you don't say nothing  
Waiting on better days  
But they won't show up if you don't do nothing

Deep down it hurts that I can't do a thing  
My eyes are bleeding, they're glued to the screen  
Headlines are monsters that everyone honors  
Blink if it hurts you to see what I see  
Both eyes have witnessed this catastrophe  
Stand at the altar, swear me a promise

Don't you surrender, no  
There's no surrender

Nothing's ever gonna change  
If you don't stand up and you don't say nothing  
Waiting on better days  
But they won't show up if you don't do nothing  
You're not safe  
Put a needle in your coffin counting all your losses  
You're not safe  
If you only gotta stand up, stand up

Face with the truth in the demons we see  
Fist to the sky, tell me what you believe  
Put down your weapons, put down your weapons  
If you've been kicked down, get back to your feet  
No turning back now, no there's no retreat  
When they hear us running, they'll know we're coming

Don't you surrender, no  
There's no surrender  
Don't you surrender, no  
There's no surrender

Nothing's ever gonna change  
If you don't stand up and you don't say nothing  
Waiting on better days  
But they won't show up if you don't do nothing  
You're not safe  
Put a needle in your coffin counting all your losses  
You're not safe  
If you only gotta stand up, stand up

Stand up!  
Go!  
Stand up!  
Stand up!  
(You're not safe)  
Stand up!
