

## Pretend

### Paper Route

I know that you know the feeling  
I know that we're giving in  
I know that you know the feeling

I woke up with my head in the clouds  
Asleep with you on my mind  
I guess I need to figure this out  
Before I see you tonight

I'll hide my favorite scars with the shirt and the tie  
You'll let your hair fall down while you're saving my life  
I'll leave my bourbon nerves for your body of wine  
If I come over again

We can pretend  
We're wanting different things and then  
We can pretend  
We'll never end up here, end up here again

You found out I was broken at heart  
And you read me Audre Lorde  
When each word from your lips made a mark  
I didn't care anymore

I play my favorite songs when I'm driving you home  
You let your hair fall down when you know we're alone  
It's such a careful dance when your feet have been cold  
The only way to defend

We can pretend  
We're wanting different things and then  
We can pretend  
We'll never end up here, end up here again

Oh we can pretend all day but we know that it's true  
And then pretend to see from the different view  
I've got a whole routine I've been playing for you  
Over and over again

We can pretend  
We can pretend  
I know that you know the feeling  
I know that we're giving in  
I know that you know the feeling  
I know that we're giving in  
I know that you know the feeling  
I know that we're giving in  
I know that you know the feeling  
We can pretend
