

## Cap

Papoose

It's too hot to be capping  
You wearing that dirty baseball cap  
Before you drink your bottle you open up the cap  
If you had a job you'll have a salary cap  
Keep playing with me and I'ma pop a cap  
In your ass, that's a fact, you all cap  
Every time you type on the 'Gram you use caps  
'Cause all of that shit you be typing is all cap  
That's why they call your captions captions 'cause you cap  
You stay capping, that's a fact  
You stay screaming gang gang gang but what you jack?  
You say you gon' catch me lacking, I never lack  
What is that? Be exact  
Matter fact, that shit is all cap  
He kneel for the national anthem, shout out to Kap  
Fuck the police, the sergeant and the cap  
They want me in captivity but not pap, never that  
That shit is all cap

I used to sell capsules back when I sold crack  
But thank God I changed my life, got outta that  
Now I'm just capitalizing off of rap  
Captivating on a track  
You say you riding around town in a Maybach  
But I seen you ride in a whooptie with hubcaps  
Write my own rhymes, I collect ASCAP  
That's a fact, you all cap  
Everything I'm saying to you involves cap  
'Cause everything you say and you do is all cap  
I been toting straps since Bloods was screaming blat  
Bblat  
Bbbbbbbblat
