

Fentanyl

Papoose

If you got a drug problem, you gotta watch who you buyin' from
If you catch a dose of me, I promise, you dyin' son
All these dudes care about is gettin' some cash
They wanna make they product stronger so they mix it with trash
A bunch of fake hustlers, biggest snakes you can see
Before they come to sell you drugs, they mix it with me
A man-made chemical, gotta watch what you takin'
'Cause combined with other drugs, I'm a deadly combination
I am a hundred times stronger than morphine
Before they caught that lawsuit, you could find me in Walgreens
I'd rather see Prince singin' in the purple rain
But, instead, I seen a icon hurtin', pain
Unfortunately, he thought he was takin' painkillers
But he didn't know they laced 'em with me, the grave digger
Mac Miller thought he was buyin' Percocets
But they laced 'em with me, which lead to a certain death
Years later, the cops caught the punk cowards who sold it
'Cause they got caught sellin' counterfeit Oxycodone
Great actor, he was honest 'bout his addiction
But that didn't stop me from takin' Michael K. Williams
Gangsta Boo, TMZ claimed my life was lost by me
But out of respect, we gotta wait for the autopsy
Rest in peace Coolio, well known from coast to coast
Another legend the world lost from a overdose
Be extra careful if you smokin' marijuana
It's laced all over the place, New York to California
If you buy random drugs and we never met before
Let me introduce myself, my name is Fentanyl
