

It Won't Go Away Again

Parabelle

When I looked your way you told me I was crazy
It's been so many years, I still know you're the one
I won't grow tired of this place
I could wake up every morning to your face

It won't go away again, that's all I know
It won't go away again, that's all I know
I don't know what to say, it's just that I've loved you so long
And I will always be there, you don't have to be scared anymore

There's not enough time in the world to be wasting
If I could have all the time in the world with you I'd take it
Inside it feels like I'm screaming out loud
I just want the whole world to know

It won't go away again, that's all I know
It won't go away again, that's all I know
I don't know what to say, it's just that I've loved you so long
And I will always be there, you don't have to be scared anymore
You don't have to be scared anymore
You don't have to be scared anymore
You don't have to be scared anymore

And just for tonight the whole world stops
It's a blessing to see in your eyes
And know nothing is missing

It won't go away again, that's all I know
It won't go away again, that's all I know
I don't know what to say, it's just that I've loved you so long
And I will always be there, you don't have to be scared anymore
You don't have to be scared anymore

When I looked your way you told me I was crazy
