

Lost & Found

Parabelle

This is where it comes down, this is where we lay
This is where the past comes back to haunt me

I will let the flies out, I will make you scream
I won't let the shape shift right back to me

If all we know has never felt so lost and found
If we walk, we could try just to fool the sunrise
I swear I was fooled by the look, by the shape of your eyes

So burn out, just let me fall
I could never say the words at all
I'm lost, you are found
And I thought you could carry us

This is where I crumble, this is where I lead
This is where the shape shifts right back to me

If all you want is to be always mine
If that's all you meant, you never said it aloud

We're so lost and found
If we walk, we could try just to fool the sunrise
I swear I was fooled by the look, by the shape of your eyes

So burn out, just let me fall
I could never say the words at all
I'm lost, you are found
And I thought you could carry us

Free yourself from the fight here
Then let it go, let it go

We're so lost and found
If we walk, we could try just to fool the sunrise
I swear I was fooled by the look, by the shape of your eyes

So burn out, just let me fall
I could never say the words at all
I'm lost, you are found
And I thought you could carry us
