

## Time & Place

### Parabelle

It's not a disaster, my darling  
I still hear the faintest sense of sweet revenge  
But time will show who ends as the villain  
You tell yourself that you won't fit  
They drag you out so you can confess  
The time will come when they bow down to the witness

I won't be lost 'cause I still scream  
At the top of my lungs, at the top of their lungs  
They say there's a time and a place  
It's never my time or my place  
And the past should fade away

Your solid lack of contribution  
Won't leave a dent on the Earth  
And I can raise two fingers  
You can use to count your worth  
It won't take long, you won't feel safe,  
I won't be long

I won't be lost 'cause I still scream  
At the top of my lungs, at the top of their lungs  
They say there's a time and a place  
It's never my time or my place  
And the past should fade away

Who's gonna leave here tonight  
Knowing so many hearts break inside in silence  
I can't see the world through your eyes, you can't see through mine  
Doesn't make me wrong, doesn't mean you're right  
No matter how hard you try

We won't be lost 'cause we still scream  
At the top of our lungs and as loud as we want  
They'll say it's never our time or our place  
But this is our time and our place  
Where the past will fade away

When it all comes down  
When it all comes down  
And the past will fade away  
When it all comes down  
When it all comes down  
And the past will fade away  
No matter how hard you try
