

Finally Got It Right

Parachute

Before you came I jumped the gun
I'd get so far ahead that I couldn't stop
Too many times I should have run
I'd tell myself it's real but it never was

All of those mistakes I made
Over and over
They were meant to guide my way
Closer, yeah

I think I finally got it right with you (Ahhh)
It took a minute but I always knew (Ahhh)
If I never got it wrong
I never would have seen the truth
I think I finally got it right with you (Ahhh)

I searched the world so high and low
But never really knew what I'm looking for
I'd see a light and chase the glow
But everything that shines isn't always gold

All of those mistakes I made
Over and over
They were meant to guide my way
Closer, yeah

I think I finally got it right with you (Ahhh)
It took a minute but I always knew (Ahhh)
If I never got it wrong
I never would have seen the truth
I think I finally got it right with you (Ahhh)

I'd given up, given up, given up on finding love
But it was you, it was you that I kept on dreaming of
And once I knew that feeling, I couldn't go wrong

I think I finally got it right with you (Ahhh)
I think I finally got it right with you (Ahhh)

I think I finally got it right with you
(I finally got it right with you)
It took a minute but I always knew (Ahhh)

If I never got it wrong (Never got it wrong)
I never would have seen the truth
I think I finally got it right with you
(Yeah, I finally got it right with you)

Hey, I finally got it right with you
(Finally got it right with you)
I think I finally got it right with you
(Finally got it right with you, oh)

If I never got it wrong (Never got it wrong)
I never would have known the truth (Ooh-ooh)
I think I finally got it right with you
I finally got it right with you
