

Without You

Parachute

Ooh, I'm never going without you, no
I'm never going without you

I try to fight it
But every time it's like a brand new car
or a drug and you know you're gonna try it
When they tell you that you can't do that
but you will and you know you're gonna like it
When you light a flame it grows
If you set a bomb it's gonna blow
When I see your pretty little face that I want to know then

I don't want to fall asleep without you
I don't want to take one breath without you
I don't even know one thing about you
But give me everything about you
It's only been a moment, it's true
But I could never live this life without you

Whoa, I'm never going without you, no
I'm never going without you

You give me one look
And I'll be on one knee with the plastic ring,
God, and I don't even know you
Yeah, we could run this back one million times
But it's no use
I'll keep falling too fast
Why do I only want what I don't have? Like

I don't want to fall asleep without you
(Never without you)
I don't want to take one breath without you
(Never without you)
I don't even know one thing about you
(Give me)
But give me everything about you
It's only been a moment, it's true
But I could never live this life without you

I could never live without you

Doesn't matter where I go
Doesn't matter if I run
We were always gonna get too close
We were always gonna fall in love
Doesn't matter where I go
Doesn't matter if I run
We were always gonna get too close
We were always gonna fall in love

I don't want to fall asleep without you
I don't want to take one breath without you
Oh, and I don't even know one thing about you
But give me everything about you
I know that

I don't want to fall asleep without you
(Never without you)
I don't want to take one breath without you
(Never without you)
I don't even know one thing about you
(Give me)
But give me everything about you
(Give me)
It's only been a moment, it's true
But I could never live this life without you

I could never live without you
Doesn't matter where I go
Doesn't matter if I run
We were always gonna get too close
We were always gonna fall in love

I don't even know one thing about you
(Give me)
But give me everything about you
(Give me)
It's only been a moment, it's true
But I could never live this life without you
(Never without you)
I don't want to live this life without you
