

Weatherman

Parade

Raindrops keep falling on my head
Tears they keep falling on my bed
And I can't be saved by no umbrella
Dark clouds are blocking my sunshine
Then lightning falls on me sometimes
I wish I could predict the weather

I said the weatherman oh
I said the weatherman predicts some rain
And it's falling from my face yeah
The weatherman oh
I said the weatherman predicts some rain
And it's falling from my face yeah

It's raining so hard that I can't see
Be raining so long since he left me
And I just don't know why
I built a river from crying for love
And it's all because

I said the weatherman oh
I said the weatherman predicts some rain
And it's falling from my face yeah
The weatherman oh
I said the weatherman predicts some rain
And it's falling from my face yeah

I plead the clouds sometimes
Up up up away I say
Up up up away I say
Please make way for the sunshine
Up up up away I say
Up up up away

I said the weatherman oh
I said the weatherman predicts some rain
And it's falling from my face yeah
The weatherman oh
I said the weatherman predicts some rain
And it's falling from my face yeah

I said the weatherman oh
I said the weatherman predicts some rain
And it's falling from my face yeah
The weatherman oh
I said the weatherman predicts some rain
And it's falling from my face yeah

Please make way for the sunshine
I say up up up away I say
I plead the clouds sometimes
Up up up away I say
