Raindrops keep falling on my head Tears they keep falling on my bed And I can't be saved by no umbrella Darks clouds are blocking my sunshine Then lightning falls on me sometimes I wish I could predict the weather

I said the weatherman oh
I said the weatherman predicts some rain
And it's falling from my face yeah
The weatherman oh
I said the weatherman predicts some rain
And it's falling from my face yeah

It's raining so hard that I can't see Be raining so long since he left me And I just don't know why I built a river from crying for love And it's all because

I said the weatherman oh
I said the weatherman predicts some rain
And it's falling from my face yeah
The weatherman oh
I said the weatherman predicts some rain
And it's falling from my face yeah

I plead the clouds sometimes
Up up up away I say
Up up up away I say
Please make way for the sunshine
Up up up away I say
Up up up away

I said the weatherman oh
I said the weatherman predicts some rain
And it's falling from my face yeah
The weatherman oh
I said the weatherman predicts some rain
And it's falling from my face yeah

I said the weatherman oh
I said the weatherman predicts some rain
And it's falling from my face yeah
The weatherman oh
I said the weatherman predicts some rain
And it's falling from my face yeah

Please make way for the sunshine I say up up up away I say I plead the clouds sometimes
Up up up away I say
