

Guard (Interlude)

Paradise Fears

Strutting, twisting, twirling
Running through your perfect little world
I feel the spaces inbetween
Feel you inbetween
Feel you inbetween

Sinking, Twisting, Swirling
Sliding through your atmosphere of words
I feel you taking over me
Taking over me
Taking over me

We don't need to rush
Time will stop for us
Let your guard down tonight

We don't need to rush
Time will stop for us
Let your guard down tonight

We don't need to rush
Time will stop for us
Let your guard down tonight
