

## Prelude to Descent

Paradise Lost

Set me down, Oh set me down  
On hallowed ground again  
Wear me down in prayer confounded  
Shadow my torment

It's dead it's over all too slow  
Can't you see you're my worst enemy?  
It's over, overthrown  
All I see is just faithless decree

Set me down, Oh lay me down  
On ravaged ground again  
Lay me down, embrace me now,  
My prelude to descent

We never run the same way...  
We never run the same...
