

Cheat & Pretend

PARADOX

For the world there is a plan
Coming to my brain
I'm the one to make the crowd understand
Pray! - and my family's open
Come and see the light!
Pray! - in the desert we clean our flesh and mind
The access to fight

I am the genius, I am the blaze
Telling you that you must follow
Me in the maze
I'm your controller, hold in my hand
Your entire world
I'm all that you comprehend
Send, cheat and pretend

I'm your lord, justice and law
You depend on me
I'm the one to tell you what you see
Pray! - I'm your leader, your bible
And if I order to kill
Pray! You don't query
I tell you and you will love the thrill

Wild helter-skelter is what we need
The unrest, we are creating
Makes all complete
I'm your controller, hold in my hand
Your entire world
I'm all that you comprehend
Send, cheat and pretend

White domination is going down
Then it's time to be the leaders
For the blacks around
I'm your controller, hold in my hand
Your entire world
I'm all that you comprehend
Send, cheat and pretend
