Collision Course

PARADOX

Are we just some kind of puppets on a string
Enslaved to be tools of presidents and kings
Players in a show that runs almost for free
Only to the costs of those whose straings are weak

It's a tragedy (tragedy) – neglet the domination
Like a parody (parody) – a fiendfish agitation

The people of the world – on a collision course
Dictators and religions – the population as their toys
Racial hate unfurled – it's a collision course
Humanity collides – it's a collision course

Stop – breaking the rules of nature
Blind – can't you see the danger
Mute – standing there in silence
Screaming echoes of hate and violence

(A puppet you no longer shall be – set yourself free)

The troops are sent out – for a fast kill
Are we directed without an owl will
Do we have to obey – in order to survive
Do we have to march on to sacrifice life

A possibility (it would be) – to neglet the domination
Play a parody (parody) – war assassination

The people of the world – on a collision course
Dictators and religions – the population as their toys
Nations of the earth – it's a collision course
Humanity collides – it's a collision course
