Manhunt

PARADOX

I'm coming with my pack, weapons and a plan
All the men are working hand in hand
We're getting closer now, right behind your back
That's a war you'll never understand

One day we will break you
We're the force to take you down
Watch your step and traces
Cause we know your face now
On the hunt, on the hunt, on the hunt
It's hunt, manhunt

You're getting no more sleep, coz we're the death to come
Breathing down your neck we make you pay
If you're standing still, you die, that's a truth you know
Nerves are getting weaker every day

One day we will break you
We're the force to take you down
Watch your step and traces
Cause we know your face now
On the hunt, on the hunt, on the hunt
It's hunt, manhunt

Reaching for you, we destroy all your dreams
Freedom is one of that kind
Holding your life in the grasp of my hand
That's what I'm trying to find
So take your stand!

Seven nights without a rest, always on the run
Did their work, they all are going down!
Drained, emaciated face, broken, beat and done
Now your will to live is almost gone

One day we will break you
We're the force to take you down
Watch your step and traces
Cause we know your face now
On the hunt, on the hunt, on the hunt
It's hunt, manhunt

Hundreds of men I have killed with my gun
Some of them died in my hands
Showed no remorse, it's a battle I've won
Always I fought to the end
So take your stand!
