

## Planet Terror

PARADOX

It's not revolution  
And it ain't evolution  
The sickness of mankind  
Imbecile and powerblind  
To flick a single switch  
To destroy some thousand lives  
A quiet assault undercover trick  
The thief's of life arise

Living on a planet of hate  
Fanatics of terror irate  
Brutality used to berate  
A planet of animosity  
Wars of irrationality  
Slaughters of insanity

Innocent people slain for a dream  
Full of religious lies  
Blinded by seducing promises  
Fanatics run to die  
The kids in the streets are manipulated  
Terrorized and stupified  
To uncover the rotten ones  
It's so hard to decide

Planet of terror such an insane place  
We keep on trying to escape  
Polluted with human waste  
Planet of terror planet hate

It's not just the answer to oppression  
Or protest against machinery  
Like a little boy screaming  
Bastards stop murdering  
Leave us alone with your ego-dreams  
You're not helping anyone  
A planet of terror devoured by scorn  
In a war that can't be now
