

# Timeless Souls

Paragon

It's immortality - a dream come true  
A mortal world we've left behind  
A crystal life - our greatest coup  
And we've sold our peace of ind

Live your sins  
Save more memories  
Joy built-in  
Fear no boundaries

The future is in our hands  
And the past to change  
Reign of timeless souls  
Fates under command  
Arrange and re-arrange  
Reign of timeless souls

Road to insanity - brains overload  
To much for a human mind  
A power plant - close to implode  
A chaos no one can align

Try to scream  
Trapped in memories  
Endless dream  
Without boundaries

Our dreams and memories  
We kept in secrecy  
All praise this miracle  
An electric sorcery

No end of this adventure  
'til the sun burns out  
No limits, no borders  
We live our dreams all-out
