

## Circle

Paramore

Take this time to realize  
that you always shut your eyes  
in the midst of trial  
and everything is always right  
and I think that it's time  
this battle must be won  
but you pushed it aside  
pushed it aside  
pretend that it's gone

This circle never ends  
and it's time you just face it, don't pretend  
that it's over  
this circle never ends  
and it's time you just face it, don't pretend  
that it's over

Take this time to realize  
that you always force a smile  
in the midst of trial  
and everything is always right  
and I think that it's time  
this battle must be won  
but you pushed it aside  
pushed it aside  
pretend that it's gone

This circle never ends  
and it's time you just face it, don't pretend  
that it's over  
this circle never ends  
and it's time you just face it, don't pretend  
that it's over

And it never ends  
it never ends  
and it never ends  
and it never ends  
no, it never ends

This circle never ends  
and it's time you just face it, don't pretend  
that it's over  
this circle never ends  
and it's time you just face it, don't pretend  
that it's over, it's over
