

# Native Tongue

Paramore

How can they say  
that it's one way  
when it's the opposite?  
And how can they know  
the end of the story  
before I tell it?

'Cause when I walk  
your feet, they fall  
to the same beat.  
Or maybe we're from two different worlds,  
But we got our own language!

We talk to people,  
but they never understand!  
They think we're crazy  
'Cause it sounds like noise

When we're speaking in our native  
speaking in our native tongue!  
We're speaking in our native  
speaking in our native tongue!

We used to live  
like we were strangers  
we didn't know any better!  
We didn't fit  
in with the out crowd  
so we gave in  
and we shut our mouths!

But oh I love your history  
and I can take it!  
And when you talk in code to me  
I can translate it!  
We talk to people,  
but they never understand!

They think we're crazy  
'Cause it sounds like noise to them  
Ain't it strange  
all the things you hear  
when you sit  
and listen?

We're speaking in our native,  
speaking in our native tongue!  
We're speaking in our native,  
speaking in our native tongue!  
We're speaking in our native,  
speaking in our native tongue!

And all this time I've been wasting my breath,  
just wasting my words on everyone else!

Now speaking in my native,  
speaking in my native tongue!

So come on,  
talk it out!  
So come on,  
Talk it out!  
Some come on  
and talk talk talk talk talk -  
talk it out  
(Your voice, it brought me back from the dead, somehow)  
so come on and  
talk talk talk talk talk  
talk it out!

OUT!

OUT!

OUT!

Speaking in our native,  
speaking in our native tongue!  
We're speaking in our native,  
speaking in our native tongue!

(You know we speak in my native aooohh)  
And all this time I've been wasting my breath,  
just wasting my words on everyone else!  
(You know we speak in my native aooohh)  
Now speaking in my native,  
speaking in my native tongue!
