

Cold Silent Hell

Parasite Inc.

Here comes the anatomy
Of the inner me - isolated
Break down into agony
Silent casualty - fucked it up

Here screams raging apathy
Voiceless energy - correlated
Hate it but you cannot see
What's inside of me - it's all stuck

It petrifies the voice and the body
When everything is trapped under concrete skin
The feelings stuck inside without clarity
An anechoic struggle and no chance to win

I am cold! I am hell! I am cold! I am hell!
I am the cold silent hell
