

Once and for All

Parasite Inc.

Get up
Get up again
Hell, you can make it
Let's smile a while
We know: "hell, you can feign it!"

The sweat
The work - you're far beyond every limit
Let's keep it up
Yet you're alive
Can you feel it?

So let's stand fast
To last and pass
All the doubt and the restraint
There is no time to faint
There is no time to ... fail

Their rules, your fears - that push beyond every limit
Let's keep it up
Yet you're alive

And still I walk the line - stand fast and don't recline
Still waiting for the call to end it once and for all
And still I walk the line - to kill the void inside
Just waiting for the call to end it once and for all

Hell, to the limit!

Restart
Restart again
Hell, I can make it
Let's smile a while
I know: "hell, i can feign it!"

The love, the hate - I'm far beyond every limit
Let's keep it up
Yet i'm alive

How can stop this cycle,
How can I stop this world

Maybe I'm just meant to fail
Till my live tears apart

There's no goal for those, who wander
With that burning void inside

With the middle finger upward
I will keep up the fight

And still I walk the line - stand fast and don't recline
Still waiting for the call to end it once and for all
And still I walk the line - to kill the void inside
Just waiting for the call to end it once and for all
