

Finallyover

Parcels

Now you're on your own
You can let it go now
You're off the phone
You can take a swim out into the ocean
Now that it's finally over

Now you're on your own
You can figure it out
Leave it open
See what you find
Believe it's golden
You'll work it out now
It's finally over

No one knows
How we can make the show
All we really know
Is how to move on

On the open road
You are hearing the air
The trees are blowing
Feeling what's there
And seeing no one
Now that it's finally over

Out into the ocean
See how the shells are really glowing
See how the world beneath is flowing
Now that it's finally over

Now that it's finally over
Now that it's finally over
Now that it's finally over
Now that it's finally over
