

I'll be there, I'll be there, I'll be there

Holding out for a loan
If you called I'd come back home
Crying out on the phone
If you call, I'll be there
Walking out in the road
I recall I called you home
Crying out on the phone
If you call, I'll be there

Is it all about what I know?
It's all around me
You know wherever you go
If you call, I'll be there

If you call, I'll be there
If you call, I'll be there

Time on your own
You never had it you know
With eyes on the road
You better get it to go
Just please let me know
If ever you're on your own
And finding it slow
Lying, lonely
Minding my own
I never wanted to go
But time in the sand
Is better than in the snow
Just please understand
It wasn't part of the plan
I tried and I tried and so

Holding out for a loan
If you call, I'll be there
Crying out on the phone
If you call, I'll be there

I'll be there, I'll be there
I'll be there, I'll be there
I'll be there, I'll be there
If you call, I'll be there

Is it all about what I know?
It's all around me
Know wherever you go
I'll be there, I'll be there

Is it all about what I know?
It's all around me
Know wherever you go
If you call, I'll be there

I'll be there, I'll be there
If you call, I'll be there
