

# I know how I feel

Parcels

I know how I feel right now  
I know how I feel now

I know how I feel but  
There's a place I need to go  
Over the end of every road  
Where I can feel it on my own

I know how I feel but  
Where the race is all I know  
Only the evening, let me go  
Where I can feel it on my own

I know how you feel right now  
I know how you feel now
