

Time to lighten up
I don't plan to
I don't plan to

Time I gave enough
I don't plan to
I don't plan to

Every eye is on us
Every side is on us
Sing it with pride and promise
Never cry, never cry

But you know we like it honest
You know that's why we bought you
I like your style and all but
Do it right, do it in time

To lighten up
I don't plan to
I don't plan to

Time I gave enough
I don't plan to
I don't plan to

You need it, you love it
The music, the time it takes
For the letter to write back
Let it go, let it go

Cause this is the final product
Drink it a while and call us
Sell it for dimes and dollars
There you go

Time to lighten up
I don't plan to
I don't plan to

Time I gave enough
I don't plan to
I don't plan to
