

Now I care some more

Parcels

You know I can be the kind
To hide behind little lies
To tell you I'm sorry too much
Overthink till I'm mourning
Do you see that I'm growing?

Now I care some more
Now I care some more
Now I love someone
Now I love someone
Now I care some more
Now I care some more
Now I love someone
Now I love someone

And all that I've kept inside
The moment I made you cry
The way that you showed me how to touch
The way that you caught me
I know it's a warning
I know that I'm falling

Now I care some more
Now I care some more
Now I love someone
Now I love someone
Now I care some more
Now I care some more
Now I love someone
Now I love someone
Know that I'm scared
Now I love someone
Now I love someone
Know that I'm weak
Now I love someone
Now I love someone
Know that I'll try
Now I love someone
Now I love someone
