

When I met you
I was just a child
Working through
Fears of the night
Then you flew
Over to my side
And then I knew
It had always been right

To give
To love
To stay
In touch
To give
Enough
To love

Till it lasts forever
Till it lasts so long
Till we're back together
I'll be alone

Till it lasts forever
Till it lasts so long
Till we're back together
I'll be alone

Now I'm leaving you
For the both of us
To find something new
Cause were not enough
And all I can do
Is to know

That we
Could meet
Again
Sometime
When we
Could be
The end

Till it lasts forever
Till it lasts so long
Till we're back together
I'll be alone

Till it lasts forever
Till it lasts so long
Till we're back together
I'll be alone

Till it lasts forever
Till it lasts so long
Till we're back together
I'll be alone

Till it lasts forever
Till it lasts so long
Till we're back together
I'll be alone

Holding out for something greater
Holding out for something else

Holding out for something greater
Holding out for something else

Holding out for something greater
Holding out for something else

Holding out for something greater
Holding out for something else
