

Summerinlove

Parcels

Is this enough?
Am I in love?
If this is enough for you too
We might not be through
I better ask you
Is this enough?
Am I in love?
If this is enough for you too
We might not be through
I better ask you now
Am I in love?

Was so light, I believe her
Summer in love, can't you see her?
Wanted her so bad, didn't leave her
Now I can't go back there just to see her
I could ride, I could leave this place
I could lie, I could reason
For something I never had, thought I'd need it
For something we all share, all of us feel it

Is this enough?
Am I in love?
If this is enough for you too
We might not be through
I better ask you
Is this enough?
Am I in love?
If this is enough for you too
We might not be through
I better ask you

Yeah
Try to make-believe when I'm with you
Try to see the flower when it blooms
Try to find a feeling I can use
Try to let the season take me through
Try to find the reasoning and truth
I find it hard to breathe when I'm with you
How can I believe that it's enough?
How can I believe that it's enough?
Find it hard to see the clearest stuff
Try to find a feeling I can touch
Try to find a feeling I can smell
Find it hard to breathe when I'm in love

Summer in love (Summer in love)
I believe (I believe)
Sky up above (Sky up above)
I will breathe (I will breathe)
Next to an open door, I will leave (Next to an open door)
Through to an open floor with a breeze (Through to an open floor)

Is this enough?
Am I in love?
If this is enough for you too
We might not be through

I better ask you
Is this enough?
Am I in love?
If this is enough for you too
We might not be through
I better ask you now
Am I in love?
