

# Thinkaboutit

## Parcels

Think about it  
And if I think about it  
Yeah, and if I think about it  
Then I'll never choose  
And if I think about it  
Yeah, and if I think about it  
Then I'll never do

Two worlds, I'm looking through  
I saw it first, I always do  
It's an old life or something new  
But if I think about it  
Then I'll never choose

Bright lights or better views  
White Nikes or leather shoes  
If I think twice, I think of you  
But if I think about it  
Then I'll never do

And if I think about it  
Yeah, and if I think about it  
Then I'll never choose  
And if I think about it  
Yeah, and if I think about it  
Then I'll never do

Which side, there's never two  
It's a swiss knife, I never use  
It's an old life or something new  
But if I think about it  
Then I'll never choose

And what's another little lie  
I think I tell them all the time  
I think I'm making up my mind  
I think I'll never get it right

And if I think about it  
Yeah, and if I think about it  
Then I'll never choose  
And if I think about it  
Yeah, and if I think about it  
Then I'll never do

And what's another little lie  
I tell them all the time  
I think I'm making up my mind  
I think I'll never get it right

And if I think about it  
Yeah, and if I think about it  
Then I'll never choose  
And if I think about it  
Yeah, and if I think about it  
Then I'll never do
