

You got me feeling like I'm uninvited
You got me feeling like I'm just outside
You got me feeling like I won't even like it
You got me feeling
You got me feeling
You got me feeling like I'm unignited
Unignited
You got me feeling like I'm wasting time
You got me feeling like I'm unexcited
You got me feeling

You got me feeling like I'm uninvited
You got me feeling like I've gone outside
You got me feeling like I won't even like it
You got me feeling
You got me feeling

You are better when I am not around
If I always just let you down
Maybe it's just better if I leave it now behind

You got me feeling, you got me feeling
You got me feeling, you got me feeling
You got me feeling, you got me
You got me feeling

You got me feeling like I'm just too tired
Too tired
You got me feeling like morning eyes
You got me feeling like I've got no timing
No timing
You got me feeling
You got me feeling

You are better when I am not around
If I always just let you down
If I'm always gonna let you down
Maybe it's just better if I leave it now behind

I don't want to fight it
I don't want to watch it burn
I could never write it
I don't want to see you turn

You got me feeling, you got me feeling
You got me feeling, you got me feeling
You got me feeling, you got me feeling
You got me feeling, you got me feeling
You got me feeling

You are better when I am not around
If I always just let you down
If I'm always gonna let you down
Maybe it's just better if I leave it now behind
