

## Complainin

Pardison Fontaine

Why you always wanna argue, and complain?  
Say you don't but then you start to, it's a damn shame  
Why you never could just chill?  
You like you argue keep it real  
Them other niggas must've scared you, it's a damn shame  
That make you hard to talk to, call me on my name  
Why you never could just chill?  
You like you argue keep it real

I know sometimes you  
Say I'm out my mind, argue all the time, I don't even wanna start  
Say you on my side, how you on my side always picking me apart,  
if it's real  
Girl you don't care 'bout how I feel (Ouooh)  
Say you hate being chose then indict me  
Keep masking the truth, have me sheisty  
Unfair, unkind, gotta be better this time  
But can we be greater than we are?  
But can we be greater than we are, right now?  
Peepin' some problem we can solve right now  
We'll never be younger than we are right now  
Can you calm down?  
I just wanna pull up and love you right now  
Baby let your guard down and put your arms around me  
You be acting [?] but girl you still my [?]

Why you always wanna argue, and complain?  
Say you don't but then you start to, it's a damn shame  
Why you never could just chill?  
You like you argue keep it real

Three dots for two minutes  
All I get is just one word: "I guess"  
Then you start blocking numbers, upset  
Girl I thought we was better than that, oh

But can we be greater than we are  
But can we be greater than we are, right now  
If it's a problem we can solve right now  
We'll never be younger than we are right now  
If it's a problem we can solve right now  
Don't gotta argue, don't gotta complain  
Know that I got you and we on the same thing
