

Run Run Run

Pardison Fontaine

Run run run run run run
Girl, this not the time for this shit and I know it
Let's take the time that we have and enjoy it
Nasty memories that we made we record it
Hurt people hurt people I'm disappointed
In me, I done wrong I'm grown and I own it
I'm paranoid when I'm riding I told it
Glocky on me and it loaded
Glocky on me
DMs is flooded I need some consoling
Treat 'em like her I know that's what they hoping
Working on healing right now and I'm focused
Chrome heart on me all these crosses
I'm holy
I'm not ready for love trust me baby I know me
And I know I'm down bad but

Good girls never been good for me
Bad luck is always on me
Heartbreak has been my story
Love just don't love me

Good girls never been good for me
Bad luck is always on me
Heartbreak's been my story
Love just don't love me

I gotta run run run run run -u-un
My heart to you Girl
I gotta run, run, run-un ru-u-un
If you hear me

Look 1942's my new best friend (yeah yeah yeah)
It makes me go out every weekend (yeah yeah yeah)
Now I'm in the club but I don't wanna be here
Always end up leavin' with some women that I meet here
Naked on the FaceTime she wanna get me geeked
I'm tryna get over some she wanna be underneath me
Can't you see I'm damaged and weak
Why you wanna take advantage of me
Girl fallin' for me is a no-no
Heartbreak kid and I'm stone cold
Heart broke I'm not ready to face it
Heart on my sleeve like a Van Cleef bracelet
Heart empty you right one for takin'
And I know I'm down bad but

Good girls never been good for me
Bad luck is always on me
Heartbreak has been my story
Love just don't love me

Good girls never been good for me
Bad luck is always on me
Heartbreak has been my story
Love just don't love me

I gotta run run run run run -un
Better run run run run -u-un
If you hit me baby girl just
Run run run run run -un
My heart still beats
Dum-dum dum-dum dum-dum-dum uh
