

Take It Down

Pardison Fontaine

I said I'm moving like a soldier move, my bitch is unapproachable
When I shoot my Uzi, man, I do that little shoulder move
Uh, uh, uh, uh, break it down, make it sound, make it sound, 5 AM, look,
look

I said I'm moving like a soldier move, my bitch is unapproachable
When I shoot my Uzi, man, I do that little shoulder move
Your bitch ain't gon' fuck with you, she stopped because I told her to
Niggas look like income tax, can't wait to get a hold of you
Yellow dress, who is you? Hollaback (Whoody-hoo)
Brought her here, Uber Black, sent her back, Uber Pool
She might get Olive Garden, pussy taste like Jamba Juice
Baby mama on my body, even more than my masseuse
Look, blessed and anointed (Facts), nigga, how you want it? (Brrat)
Don't make me call up Ghost, somebody gettin' haunted
Heard she fucked some other nigga, she just end up disappointed
Got these pussies pocket watchin', like our bank account is jointed
Look, before a nigga popped, I was sleeping on a cot
Look, now I got it lit, 100 watts in the spot
Look, know that I'm that nigga, but I be acting like I'm not
I got tats all on my belly, I be feeling like I'm (Y'all know who the fuck I
am)
I be flexin' like a wrestler (Yeah), charged up like a Tesla (Yeah)
Switching up my hoes, I dumped Siri for Alexa, look
My next baby mama, look like Evelyn Lozada, nigga
I'm the perfect age to get the daughter and the mama, nigga, ayy

Look, niggas talking crazy when I'm not around (Woah)
Around them tame niggas, you be acting wild (Who?)
Heard I want to clip his shorty other way around
5 AM at La Capella, man, I'm about to take it down
Make a sound (Ooh, ooh), make a sound (Ayy, ooh)
Make a sound, I'm about to take it down
Play time with baby Jordan, only time we play around
5 AM at La Capella, I'm about to take this-

(Offset)

Ain't no time for games, racks their fine remains (Racks)
Young niggas wild not tamed (Wild)
50 round drop my nuts, let it hang
I'm not a rapper that's broke with the fame (No)
She got good throat, what's her name?
Don't even aim with the stick, we swing
I put an M in the floor, fuck the fame
Be quiet, I'm too famous so fly on the private
I got sticks in this bitch, we get violent (Sticks)
I'm a black man, get hate by society (Hate)
Icon, they admire me, choppa a python, poison ivy (Python)
Drip in my vein, no IV (Drip in my)
A million dollars don't excite me yeah (Nah, hey)
They put me on HypeBeast
Watch your bitch 'cause she tryna bite me (Watch)
I'm too rich so don't try to fight me (Woo)
I got sticks, get put on a white tee (Sticks)
Shoot up the scene like Spike Lee
I was just in a dream, now it's life to me
Colored money like Monopoly

I pray to God that these demons get off of me

Look, niggas talking crazy when I'm not around
Around them tame niggas, you be acting wild
Heard I want to clip his shorty other way around
5 am at La Capella, man I'm about to take it down
Make a sound (Ooh, ooh), make a sound (Ayy, ooh)
Make a sound, I'm about to take it down
Play time with baby Jordan, only time we play around
5 am at La Capella, I'm about to take this motherfucker (Bow)
